

PRESS RELEASE

CIRCLE: announces the inclusion of the Milos® GSCV Suite in the Supply Chain Operational Visibility Vendor Guide by Gartner Inc.

Genoa, November 20th 2019

Circle S.p.A. ("**Circle**"), company headed by the homonymous group, specialized in the analysis and development of automation and digitalization solutions for the port sectors and intermodal logistics, listed on the AIM Italia market, organized and managed by Borsa Italiana, announces the inclusion of the Milos® GSCV (Global Supply Chain Visibility) into the Supply Chain Operational Visibility Vendor Guide by Gartner Inc.

Gartner, world's leading consultancy and research company and member of the S&P 500, provides crucial guidance for companies and stakeholders for global investment and growth activities. In November 2019 Gartner published the Operational Visibility Supply Chain Vendor Guide, a research which brings together the main technological players in the Supply Chain.

Circle is included into "Vendor List" with the Milos® solution, Circle's main product, as a support activity for the global Supply Chain. Gartner's research analyzes the contemporary logistics market and predicts that by 2024 at least 75% of the top 50 global companies will have implemented their activities in this industry.

Milos® is therefore recognized as a highly innovative and strategic product for companies in the sector at a global level. Milos® is cited within Gartner's research as a modular solution for optimizing freight transport in general, with a particular focus on automated port logistics and Gate Automation.

This report coincides with the start of the latest release of the Milos® GSCV (Global Supply Chain Visibility) modules on November 19th, 2019, which sees the implementation of the Milos® GSCV Suite with the MasterSPED® Suite, the main software of Progetto Adele, acquired last July by Circle. This implementation between the two products has been focused on the integration of the connectors of both softwares, with the aim of creating a specific added value for advanced customs services, and greater efficiency for port logistics services in terms of security and reduction of costs and times.

*Established in Genoa in June 2012, **Circle S.p.A.** is a company with distinctive vertical skills in the port sector and intermodal logistics specialized in consulting and in the development of **products for automation and for the Supply Chain digitalization**. The acquisition, at the end of 2017, of 51% of Info.era guaranteed the strengthening of the related **Milos®** and **Sinfomar®** software products, focused on the intermodal logistics sector, inland terminals and port terminals, ports (Port Community System of the Port of Trieste, in example), as well as to MTOs and maritime agencies. During 2019 Circle is further strengthening the solutions portfolio, in the IOT, Optimization, Digital Twin, Big Data, Process Automation sectors and, in July 2019, Circle has acquired 100% of Progetto Adele, a software house specialized in the development of vertical software systems on the Supply Chain with the two **Master SPED** and **Master TRADE** solutions, respectively dedicated to shipping and logistics, and commerce and industry. Furthermore, through the Connecting EU Business Unit, Circle supports Public Entities and Companies by identifying their positioning at European level (**EU Branding**) and funding opportunities (**Project Anticipation**). From October 26th, 2018 Circle is listed on the AIM Italia market of Borsa Italiana (alphanumeric code: CIRC; ISIN code for ordinary shares: IT. 0005344996). Circle is an Innovative SME.*
